Itunes 8gb Ipod Touch

Sync your iPod with your computer using USB When you sync your music, movies, and more with the Finder, the content on your iPod touch will match what's on your computer.. You will be attempting to restore your device's software without erasing your data.. Continue to hold when the Apple logo appears until the iTunes logo appears Sync with your computer If your computer doesn't recognize your iPod Your computer might not recognize your iPod when you plug it in.. After your iPod restarts, it should respond again Learn how to force restart Resources Have a question? Ask everyone.. The members of our Apple Support Community can help answer your question Or, if someone's already asked, you can search for the best answer.. Learn about USB connection errors If your iPod doesn't respond when you press the buttons Learn how to force your iPod to restart.. Use Recovery Mode when iTunes does not recognize your iPod Touch Press and hold the Power and Home buttons.. Put your iPod Touch into Recovery Mode This process requires iTunes on your computer.
